# A Brand Built on Style & Expression

Gems by Mima is a jewelry and accessories brand offering carefully selected pieces designed to complement everyday style. From elegant necklaces and bracelets to watches, earrings and anklets, the brand brings together timeless elegance, modern style and effortless beauty to help customers express themselves through the details they wear.

Year 2026

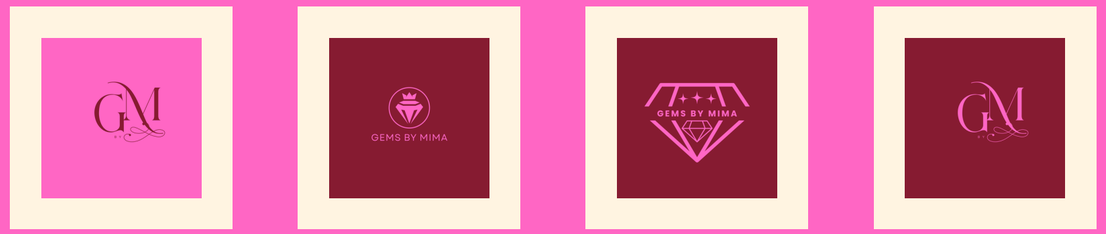

Gems by Mima

# Logo Guides

The Gems by Mima logo is designed to reflect elegance, femininity and modern style. Its clean and distinctive form creates a recognizable identity that represents the brand’s focus on jewelry, personal expression and effortless beauty.

The Gems by Mima logo combines elegance, femininity and contemporary style. The identity is designed to remain distinctive and recognizable across social media, packaging, product materials and future brand applications.

Year 2026

JEWELRY THAT COMPLETES YOU

# Color palette

The Gems by Mima colour palette combines rich burgundy with vibrant pink to create a visual identity that feels feminine, confident and stylish. The deep burgundy provides sophistication and depth, while the vibrant pink introduces a youthful, playful energy. Supporting neutral tones keep the overall identity clean, balanced and versatile.

The palette is designed to create a bold yet balanced presence across social media, packaging and promotional materials. Together with soft neutral tones, the colours create a distinctive and recognizable visual identity that reflects the brand’s modern approach to jewelry and personal style.

GEMS BY MIMA

# Logo Usage

The Gems by Mima logo is designed to create a distinctive and elegant brand presence across digital and physical applications. To maintain consistency, the logo should always be presented clearly, proportionally and with enough space around it.

# Visual style

product photography should combine soft backgrounds, thoughtful composition and subtle lifestyle elements to create an aesthetic that feels stylish and aspirational. Burgundy and pink should be incorporated naturally through backgrounds, props, typography and graphic elements without overpowering the jewelry itself

Year 2026
