Logo Usage

The Oliss Scent & Strands logo is designed to create a distinctive and luxurious brand presence across both digital and physical applications. To maintain consistency, the logo should always be presented clearly and proportionally.

The primary logo should be used whenever sufficient space is available, while the simplified mark can be used for smaller applications such as social media profiles, product labels, favicons and packaging details.

Always maintain adequate clear space around the logo and avoid stretching, rotating, recolouring or placing it on backgrounds that reduce its visibility.

Logo variations include:

- Primary logo
- Secondary logo/wordmark
- Simplified brand mark
- Light and dark version
